Product Specification Sheet

USB Notebook Mouse Internet Phone

Part #: AMV01EU

Product Description:

The Targus USB Notebook Mouse Internet Phone is a portable accessory that works as both a notebook mouse and a USB phone. Compatible with MSN, Yahoo, Google, Skype and Vonage.

This product has 2 operating modes; mouse mode and phone mode. Mouse mode works exactly like a standard 3-button USB optical mouse whilst phone mode is activated when the phone rings through the mouse to answer the incoming call. When the phone rings simply press the answer key and pick up the mouse/phone to answer the call or indeed press the scroller wheel to activate the speakerphone.

A built-in headphone connection is also provided if the user prefers to use a headset.

Product Features and Specifications:

- Integrated USB phone with built-in microphone, speakerphone and headphone jack
- Allows easy access to free Internet calls using either the earphone or speakerphone setting
- Built-in independent sound chip with volume control offers full duplex sound technology with volume control for superior sound quality similar to conventional phones
- Compact optical mouse – great for life on the road
- 800 DPI resolution mouse for accuracy and precision
- Use with or without headphones
